Dear Cap:

Thank you for your letter of 10 February discussing the Administration's activities regarding the FY85 Chemical Weapons Program before Congress.

I wholeheartedly agree that this program is extremely important and that it is essential for Congress to fully appreciate the extent of the chemical and biological warfare threat. We would be glad to assist in briefing Congress to that end and suggest that you have the appropriate person contact to work out the details. Is a Interagency CBW-Toxin Use Working Group.
